

CORPORATE PRESENTATION

TSX-V: TCO

November 2019

TRANSATLANTIC MINING - HIGH-GRADE U.S. GOLD & SILVER EXPLORER & DEVELOPER

Disclaimer – Transatlantic Mining Corp (“TRANSATLANTIC” or “The Company”) has prepared this presentation based on the information available to it. No representation or warranty, expressed or implied, is made as to the fairness, accuracy, completeness or correctness of the information, opinions and conclusions contained in this presentation. To the maximum extent permitted by law, none of TRANSATLANTIC, its directors, employees or agents, advisers, nor any other person accepts liability, including, without limitation, any liability arising from fault or negligence on the part of any of them or any other person, for any loss arising from the use of this presentation or its contents or otherwise arising in connection with it. This presentation contains general and background information about TRANSATLANTIC’s activities current as at the date of the presentation and should not be considered to be comprehensive or to comprise all the information that an investor should consider when making an investment decision. The information is provided in summary form and should not be considered to be comprehensive or complete. It should be read solely in conjunction with the oral briefing and all other documents provided to you by TRANSATLANTIC. All dollar terms expressed in this presentation are in US Dollars unless otherwise stated. Certain historical and technical information provided herein is given in reliance on outside sources that TRANSATLANTIC considers to be reliable. However, no guarantee is given as to the accuracy of any such information.

No Offer – This presentation is not an offer, invitation, solicitation or other recommendation with respect to the subscription for, purchase or sale of any security, and neither this presentation nor anything in it shall form the basis of any contract of commitment whatsoever.

Forward looking statements – This presentation may contain forward looking statements that are subject to risk factors associated with mining and production businesses. Forward-looking statements, including projections, forecasts and estimates, are provided as a general guide only and should not be relied on as an indication or guarantee of future performance and involve known and unknown risks, uncertainties and other factors, many of which are outside the control of TRANSATLANTIC.

Economic Estimates – The technical and economic viability of the proposed operation has not been established, nor have mineral resources or reserves been defined. Any economic assessment within is preliminary in nature and is based on projections from actual costs incurred in Q1 2017 and includes historical resource estimates which are considered geologically too speculative in nature to be categorized as mineral reserves or demonstrate economic viability. As such, there is no certainty that preliminary economic assessments will be realized. Mine development in the absence of mineral resources and reserves, historically, have increased risks of technical and/or economic failure.

No investment advice - This presentation is not a financial product, investment advice or a recommendation to acquire TRANSATLANTIC securities and has been prepared without taking into account the objectives, financial situation or needs of individuals. Before making an investment decision, prospective investors should consider the appropriateness of the information having regard to their own objectives, financial situation and needs, and seek legal, taxation and financial advice appropriate to their jurisdiction and circumstances. Transatlantic is not licensed to provide financial product advice in respect of its securities or any other financial products.

Independent Review – The technical data disclosed has been independently verified by Qualified Persons, Chris Pfahl of Silver Valley Engineering and Nesbert Nyama, Geologist.

Information in this presentation remains subject to change without notice.

BOARD	
CEO	Bernie Sostak Geology, 30 yrs experience
Chairman	Ray Parry Finance, 30 yrs experience
Independent Director	Michael Hulmes Engineering, 30 yrs experience
MANAGEMENT	
VP Operations Management	Ron Krusemark Engineering, 20 yrs experience

Team have explored, developed, operated and managed over 100 mines

Shares on Issue as of August 2019	81.8 M
Warrants on Issue: (average @ 25 cents 3 years)	45.3 M
Diluted shares	127.1 M
Share Price (November 6th)	4 cents

Management ownership 20%

Top 5 shareholders 60 %

COMPANY PROJECT OVERVIEW

TSX-V: TCO

A precious metal and base metal explorer to mine developer with three high grade company-making projects:

- Lease to purchase the **Kearsarge Gold Project** in Montana (USA)
- Staged purchase of Alder Mountain Project including **US Grant Gold-Silver Mine & Mill** in Montana (USA)
- Exclusive option on **Miller Gold Mine** near Helena
- Ownership of 80% of the **Monitor Copper-Gold-Silver Project** in Idaho (USA)

New Near Term Mining Opportunities

Drill, mine and develop gold from known high-grade , in multiple mineralised vein systems

Kearsarge Lease and Purchase

Entered Lease to purchase the 600,000 ounce gold 'historical estimate'^{2,3} located 8 km from the US Grant Mill as part of the lease or purchase agreement. (*Includes drilling 5.9 m at 31.15 g/t Au*)

US Grant Mine Development

Purchased Strategic US Grant Mine-Mill Project to acquire 100% ownership¹
Mine development using modern mining methods and equipment to access the mineralization²

Resource Definition Drilling

Drilling the near-mine targets to extend and upgrade the existing mineralization

Miller Gold Mine Option

Entered option agreement on Miller Mine historically producing at 7.1 Oz ton Au.(Includes *drilling 2.4 m at 516 g/t Au*)

Monitor Copper Gold Project

Earned in to 80% of a Joint Venture on several high grade copper-gold-silver deposits

Experienced Board & Management Team

Proven Management team to manage and operate mines safe and efficiently with focus on revenue margin

¹ News Release 23 January 2016. Subject to financing and exchange approval.

²Mineral resource estimate has not been established or defined. Mine development in the absence of mineral resources and reserves have increased risks of technical/economic failure.

³ News Release 4 May 2017. No tonnes and grade reported.

Board

Bernie Sostak, Chief Executive Officer (CEO)

Commercial Geologist, B.Sc., Diploma Business, MAusIMM, with over 30 years' experience in the gold mining industry, most recently as General Manager of Business Development and Technical Services for ASX-listed Northern Star Resources. Served as Director of Resource & Reserve Strategy for Barrick Gold. Extensive experience includes exploration through to resource estimation, feasibility studies, mine planning/commissioning, project evaluation and target generation.

Ray Parry, Chairman (Non-Executive Director)

Ray holds degrees in accounting and finance and an MBA in International Business. He is a Fellow member of the Certified Practicing Accountants of Australia and has over 30 years' experience in sectors including Mining, Manufacturing, Banking, Oil & Gas. Currently, Ray is the CFO/Company Secretary of Millenium Minerals (ASX) and immediately prior at Hanking Gold Mining. Was also CFO at Northern Star Resources during its early growth phase. Other roles included senior management positions at St. Barbara, Kerr McGee (USA) / Tronox & Bankwest.

Michael Hulmes, (Non-Executive Director)

Over 30 years' experience in Australia, Papua New Guinea, Portugal, Spain, Saudi Arabia & Tanzania. He is a former Managing Director of Somincor responsible for the Neves-Corvo & Aguablanca Mines in Portugal & Spain, respectively. Prior, Mike was General Manager Operations at Ok Tedi Mine, COO at Citadel Resources, General Manager Australian Operations, Barrick Australia, responsible for 5 mines, and General Manager of the Plutonic Gold Mine in Western Australia.

Management

Ron Krusemark, VP Operations (North America)

Highly experienced and skilled Mine Engineer/ Project specialist with a BSc in Mine Engineering from the Montana School of Mines. He has extensive engineering, operations & project experience in open pit & underground mines. Ron has a proven record of delivering projects on time and on budget. He has successfully increased production rates and extended mine lives in a cost effective and operationally efficient manner.

KEARSARGE GOLD PROJECT

- Located in the historical Virginia City Mining District only 5 miles (8 km) from the US Grant Mill
- 1995 historical resource estimate reported ~ 600,000 ounces Au¹ (Red hatching)
- Kearsarge group of claims:
 - 35 patented claims
 - over 700 acres
- > 6 line kilometres of multiple prospective veins

¹ News Release 4 May 2017. No tonnes and grade reported. Mineral resource has not been established or defined. The Company is not treating the historical estimate as a mineral resource or reserve.
Source: Hanover Gold Mining Company Annual Report, 1995

KEARSARGE GOLD PROJECT-GREATER EXPLORATION

- “Initial Area of focus” on the Big and Kearsarge Vein

- Near Mining Opportunity

Significant Intersections now compiled :

- Big Vein Highlighted drillhole grades (**):
 - Hole # 70 -1-94 5.9 metres (17.6 feet) at 31.15 g/t Au (1.0 Oz/t Au)- True width 5.9 m
 - 70 -3-94 7.5 metres (22.6 feet) at 48.23 g/t Au (1.55 Oz/t Au)- True width 6.0 m
 - * KS-01 5.0 metres (15.0 feet) at 60.27 g/t Au (1.94 Oz/t Au)- True width 4.3 m
- Kearsarge Vein highlighted drillhole grades(**):
 - Hole # UGKS-9-94 3.3 metres (9.8 feet) at 35.26 g/t Au (1.13 Oz/t Au) -True width 1.6 m
 - 96-2 1.3 metres (4.0 feet) at 30.47 g/t Au (0.98 Oz/t Au)- True width 1.3 m
 - * KS-02 3.3 metres (10.0 feet)at 10.23 g/t Au (0.33 Oz/t Au)- True width 2.7 m
- Gold Corridor with Pipeline of Exploration targets
 - Rough Rider, Lucas Vein, South Batchelor
 - Numerous trenches

¹ See News Release March 2 2018 Kearsarge Drilling Update and Appendix C

KEARSARGE GOLD PROJECT - EXPLORATION POTENTIAL

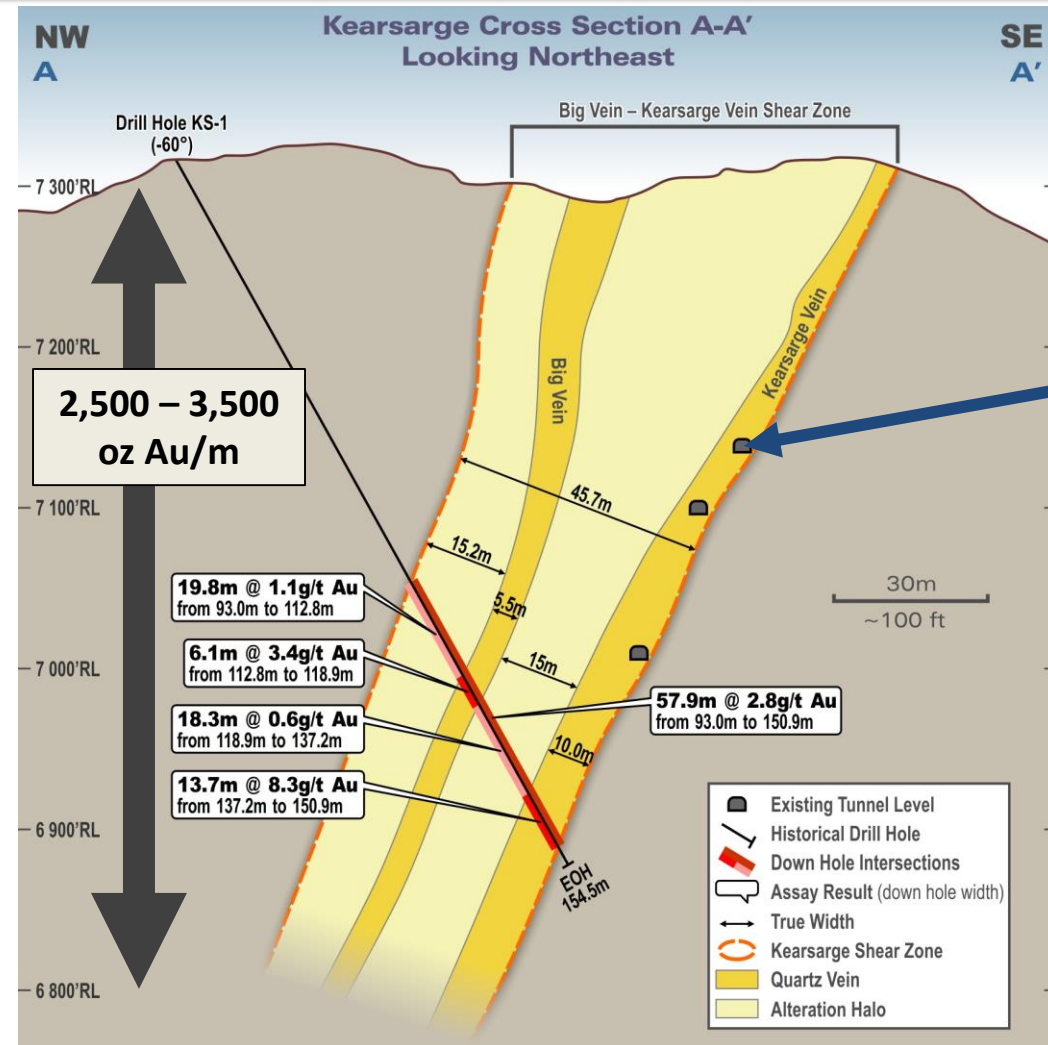

- Multiple gold veins in shear zones, dipping 70 degrees, discrete to 33 feet wide (10 m) selective domains
- Historical drilling with reported grades to¹:
45 ft at 0.269 oz/t Au
(13.7 m @ 8.3 g/t Au)

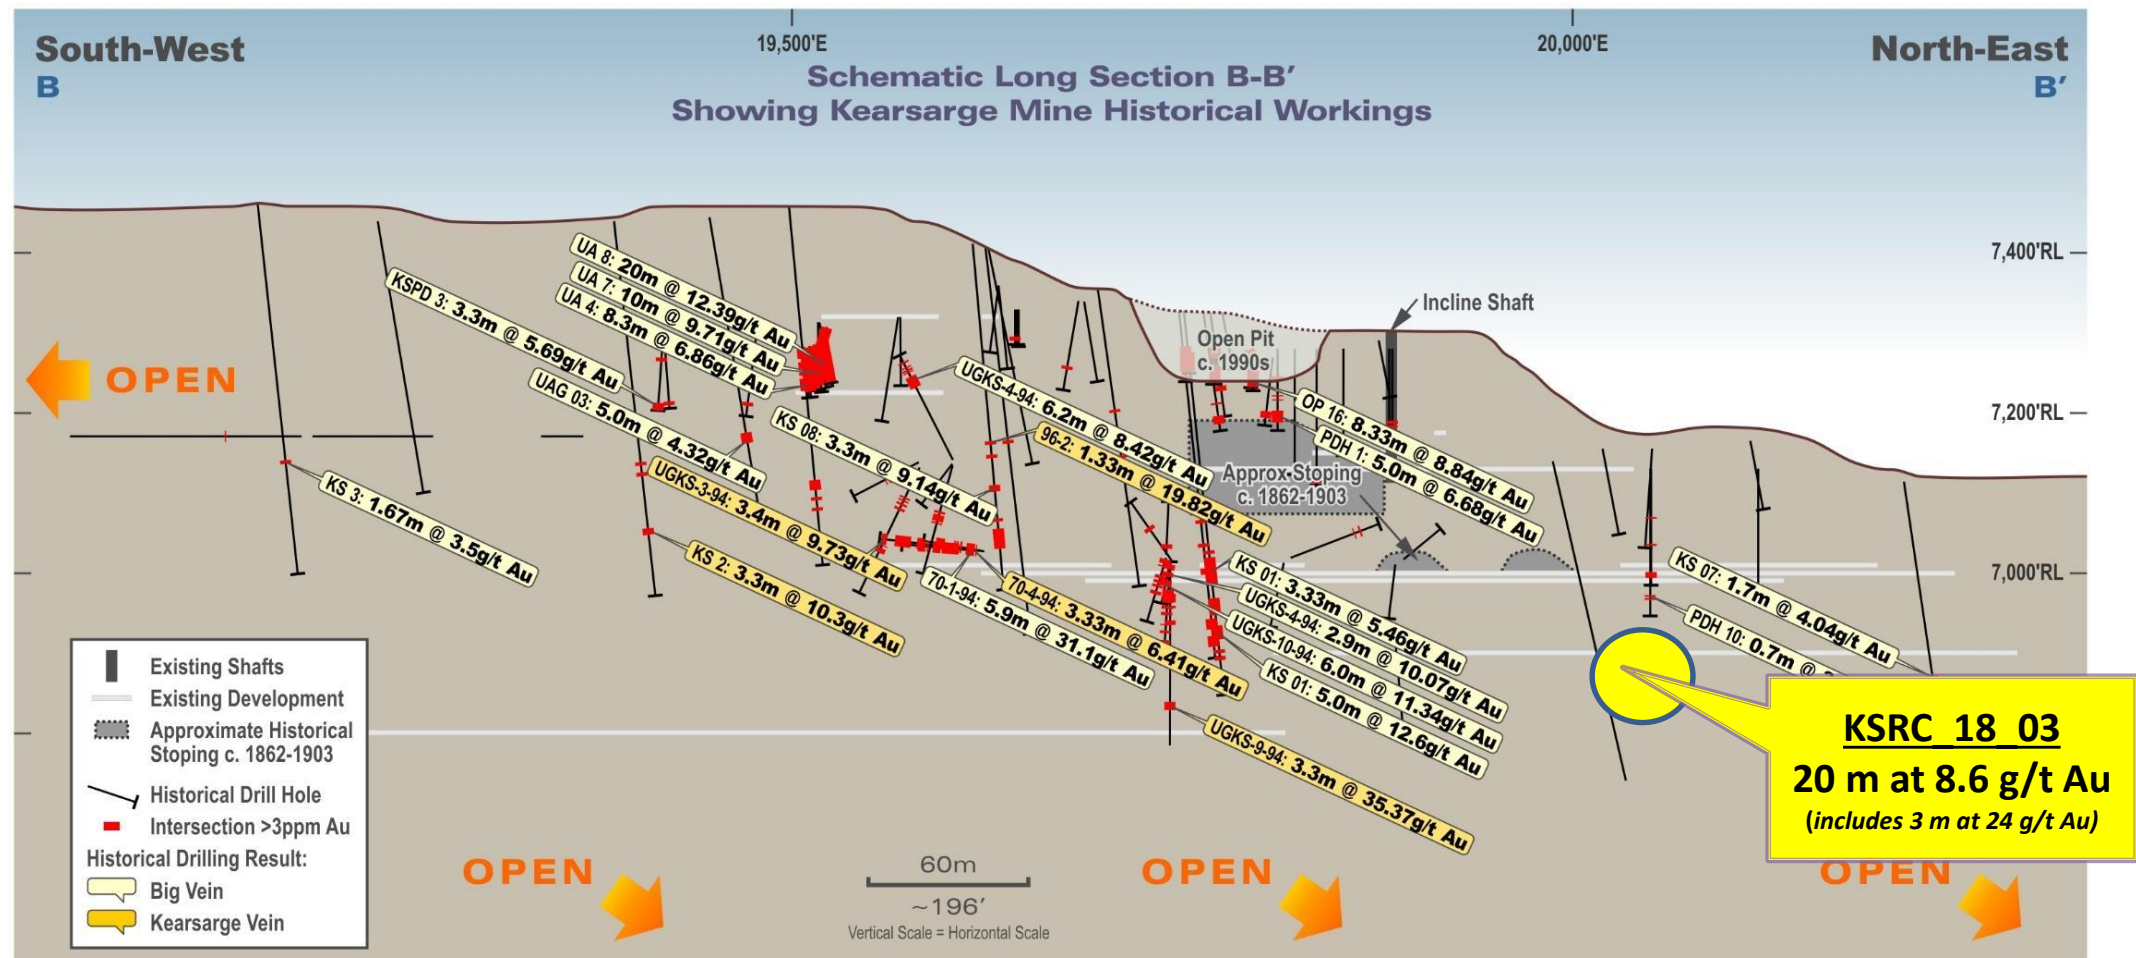

Within zone of 150 ft at 0.091 oz/t Au
(45 m at 2.8 g/t Au)

- Developed on three existing levels

¹ Source: 'Virginia City Mining District, Madison County', Tom Henricksen, Kennecott Exploration Company, 1996

KEARSARGE GOLD PROJECT-LONG SECTION 2 PLANES -BIG VEIN AND KEARSARGE VEINS

¹ See News Release March 2 2018 Kearsarge Drilling Update: and Appendix C also

US GRANT GOLD/SILVER MINE & MILL

TSX-V: TCO

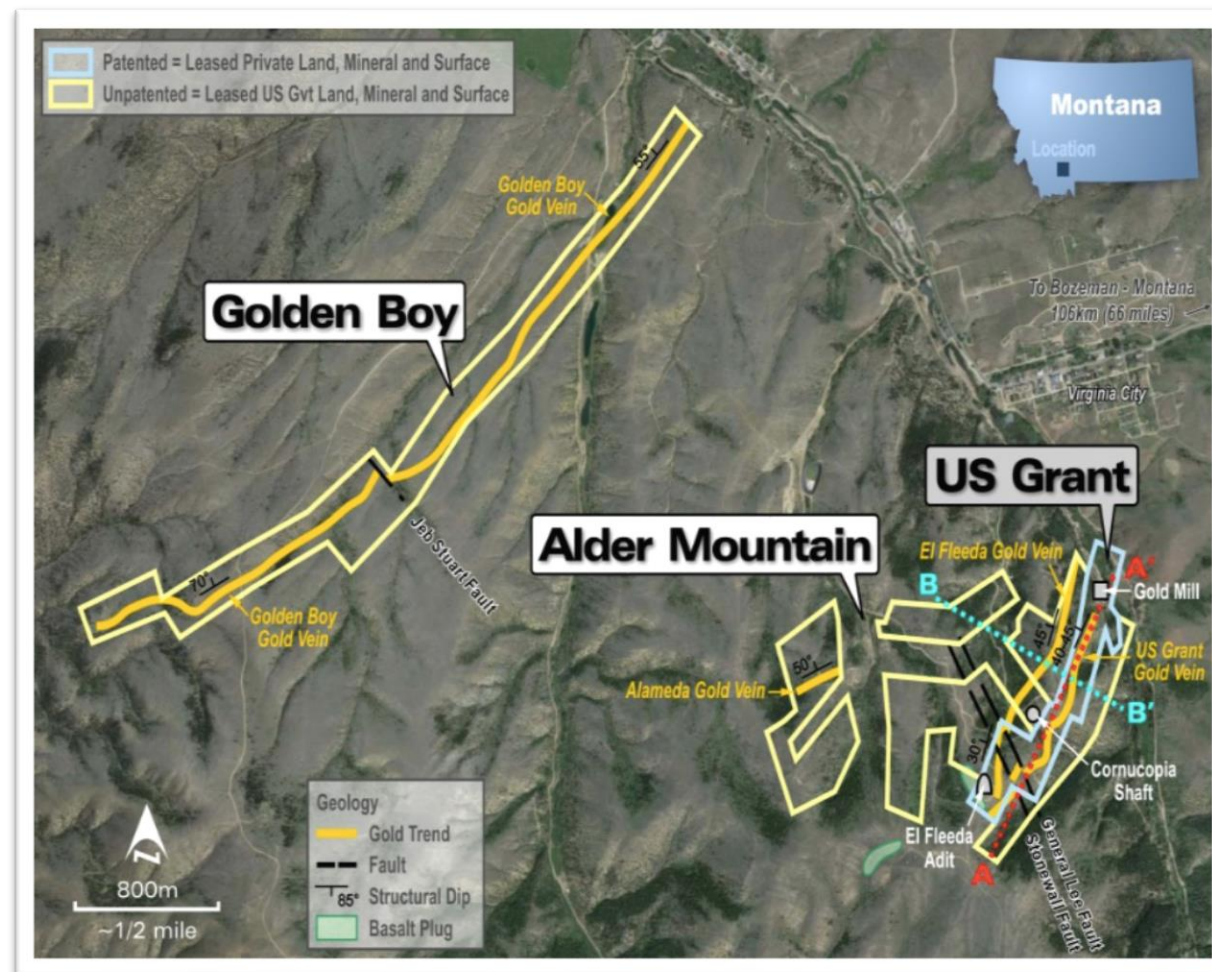

- Located in the Virginia City District which has produced ~9 million ounces gold and silver
- Group of patented and unpatented claims within the Alder Mountain Project
 - Includes 535 acre total land package
 - 5 patented and 28 unpatented claims
- Historical Estimate (1990)^{1,2,3}
 - Proven = 23,000 tons (0.53 Au opt, 16.5 Ag opt)
 - Probable = 200,000 tons (0.53 Au opt, 16.5 Ag opt)
 - Possible = 158,000 tons (0.3 Au opt, 5 Ag opt)

¹ Source: Evaluation of the US Grant Mine Property, McLeod 1990.

² Reported to US Securities and Exchange Commission requirements and definitions.
NI43-101 corresponding resource categories: Proven/Measured, Probable/Indicated, Possible/Inferred

³ Mineral resource or reserve estimate has not been established or defined. The Company is not treating the historical estimate as a mineral resource or reserve.

GROUND BREAKING YEAR – US GRANT MINE

- Focus on the permitted US Grant Mine to generate future cash flow
- Exploring new areas - drill results include 2.8 m at 19.3 g/t Gold Equivalent (Au Eq)¹
- Installed two ball mills with a capacity of 150 tpd and completed trial mining and milling
- Developed over 50 tonnes of Gold-Silver Concentrate²

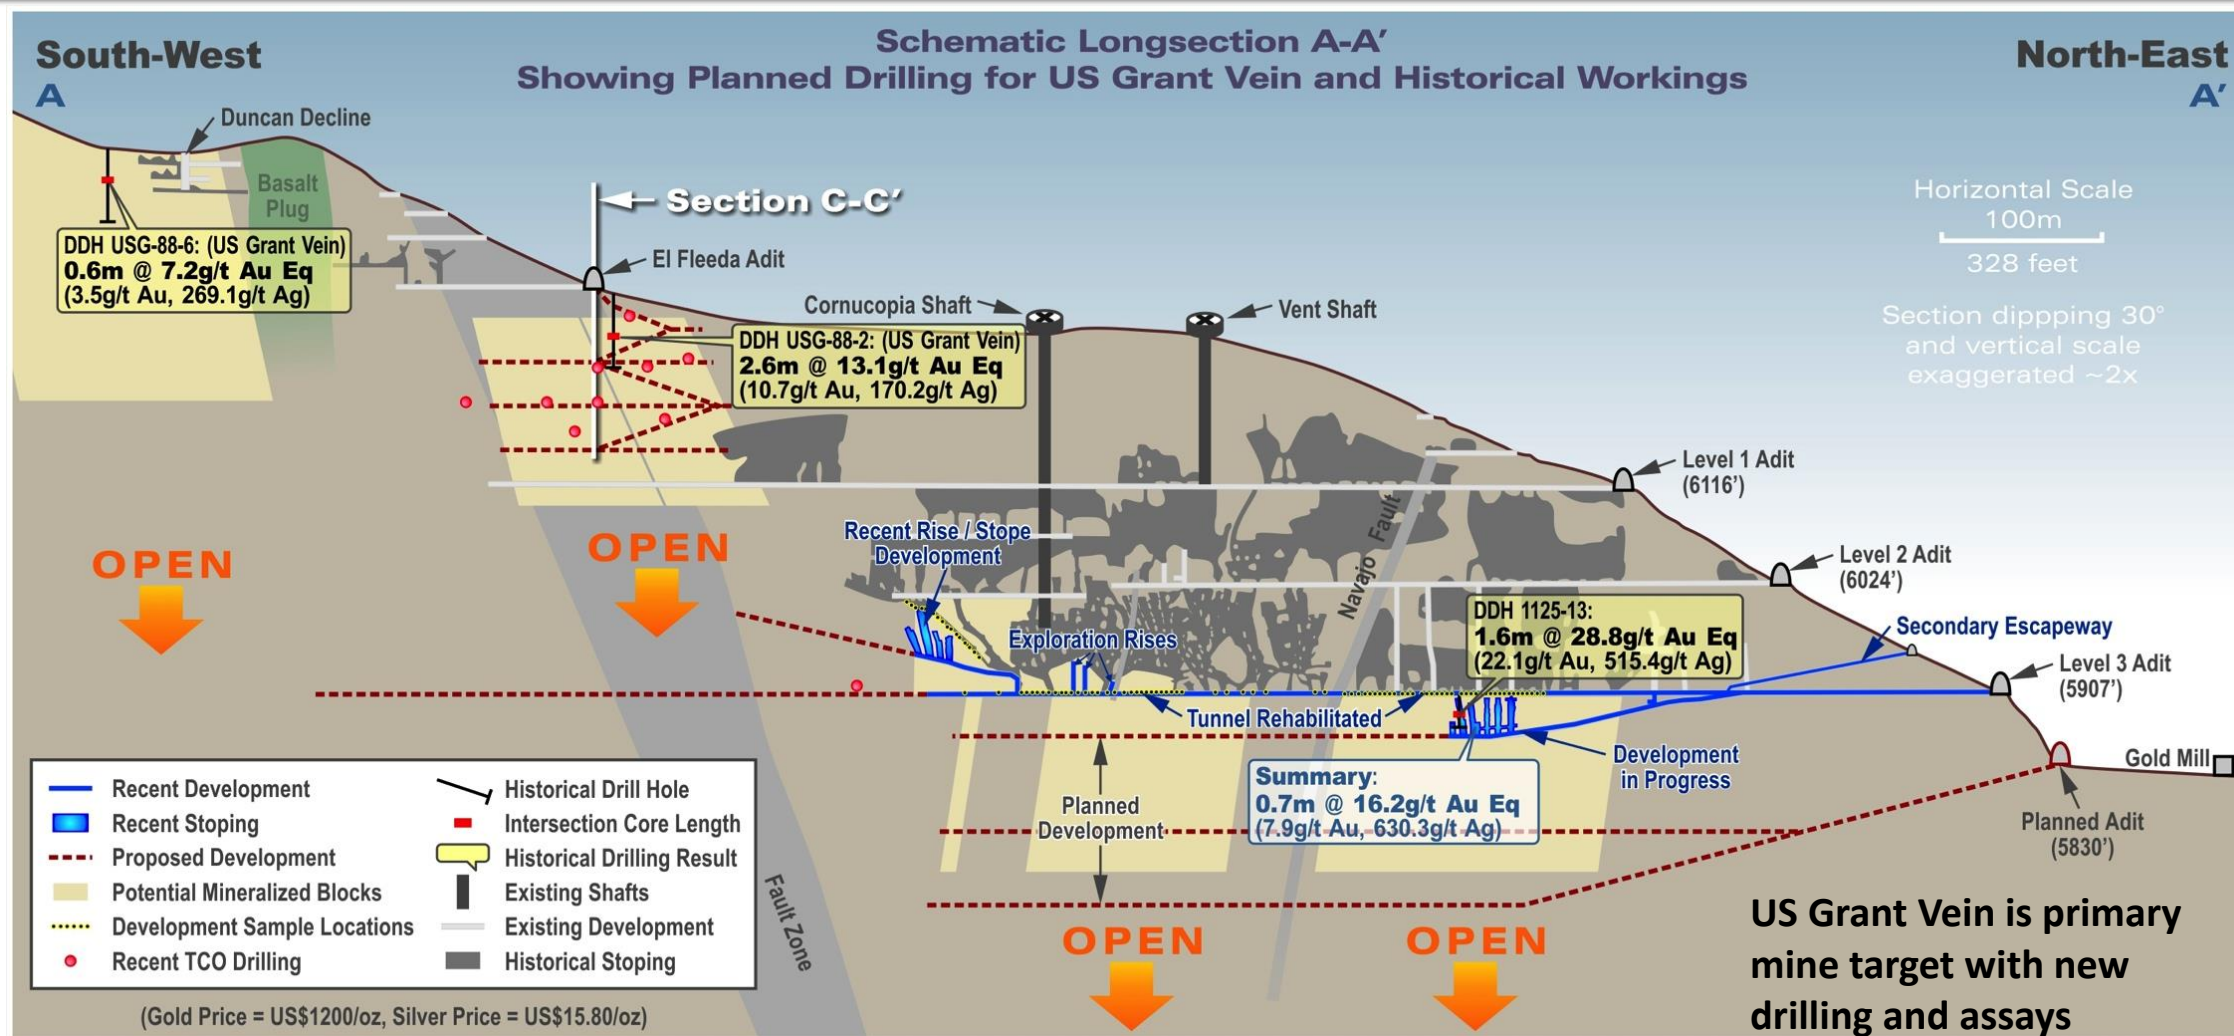

¹ Equivalent Au based on US \$1200 Au and US \$15.80 Ag, See Appendix A.

² Full-scale production decision has not been made. Current production decision is based on testing plant capability and recent drilling and has not been based on a feasibility study or mineral reserves.

US GRANT MINE - US GRANT VEIN

TSX-V: TCO

US GRANT MINE - US GRANT VEIN

TSX-V: TCO

- Portal established to access the mine
- Drilling intersecting new US Grant Vein position where no known previous historical workings
- Access to mineralised vein less than 200 m
- High grade vein with low grade halo in 11 holes
- Parallel El Fleeda exploration upside and not drilled with short access

Appendix A – 2016 Drilling Results

ALDER MOUNTAIN PROJECT - EXPLORATION POTENTIAL

US Grant Mine

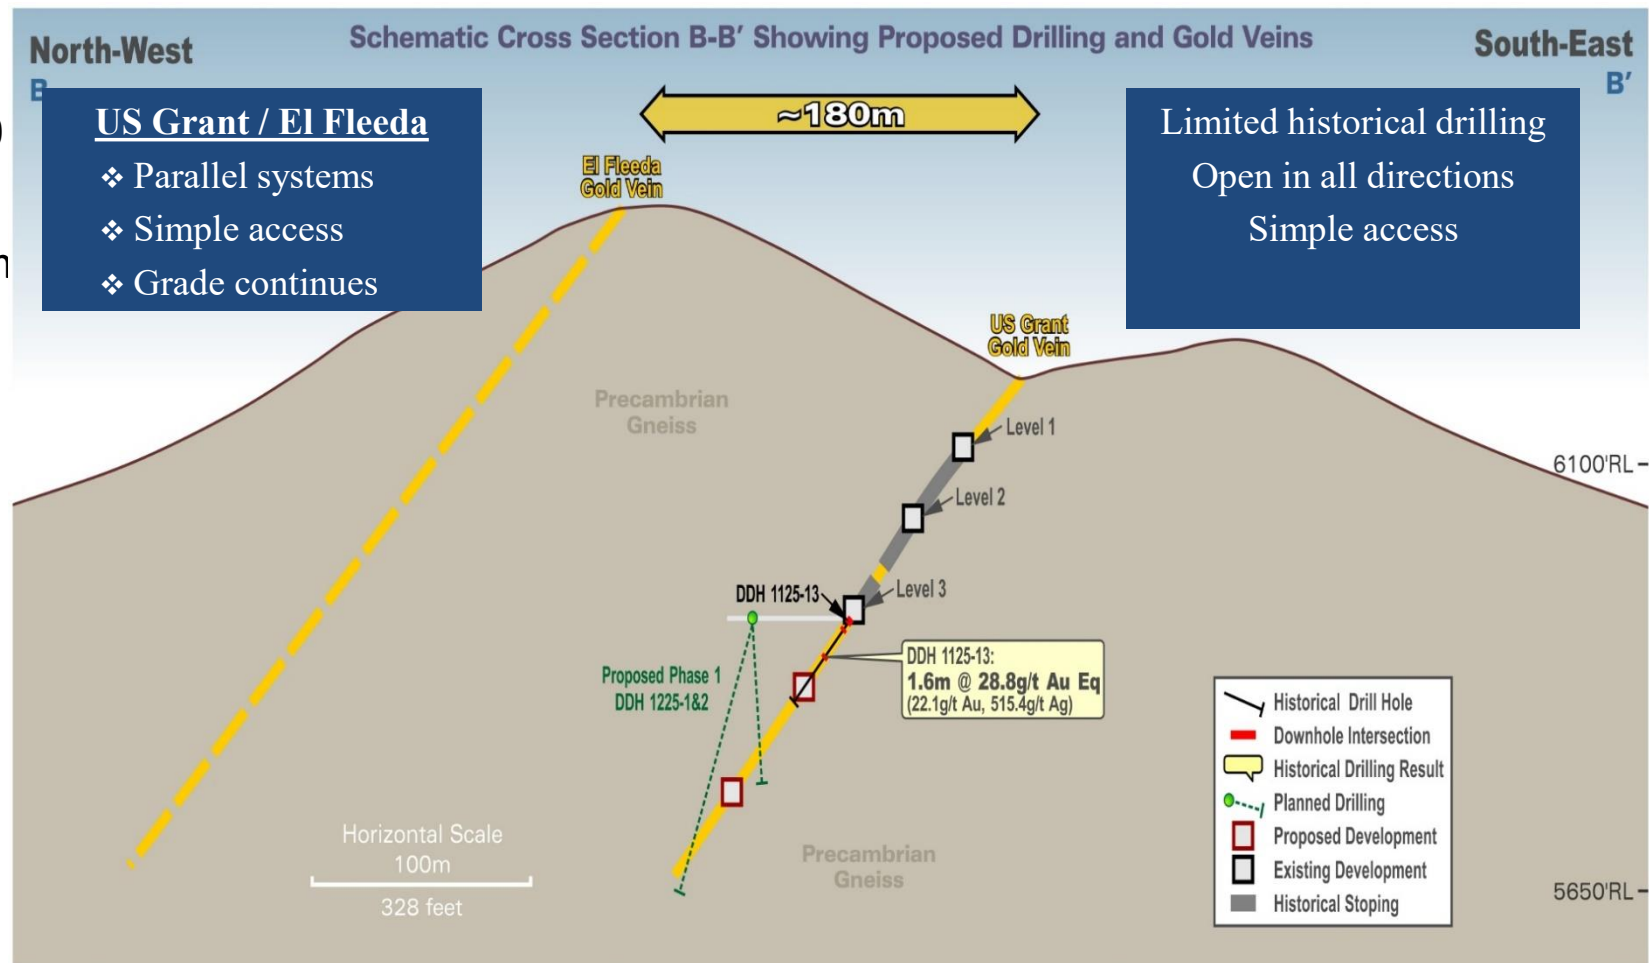

- Gold-Silver quartz veins, dipping 45 degrees, 0.5 to 7.0 meters wide and 1,200 m strike partially developed
- El Fleeda exploration opportunity, 1,200 m strike length, 180m from US Grant Vein: Shared Mine Capital

Golden Boy

- Golden Boy - two vein sets underexplored over a combined length of 7.9 line km

Alder Mountain Project

- Exploration Target¹:
1.7-2.6M tons at 0.19-0.28 opt Au Eq
(350,000 – 750,000 ounce Au Eq)

¹ Appendix B

MILLER MINE – GOLD MINE OPTION

**Sample 1 : 15.5 g/t Au 26 g/t Ag*

**Sample 2 : Visual Gold- no assay taken*

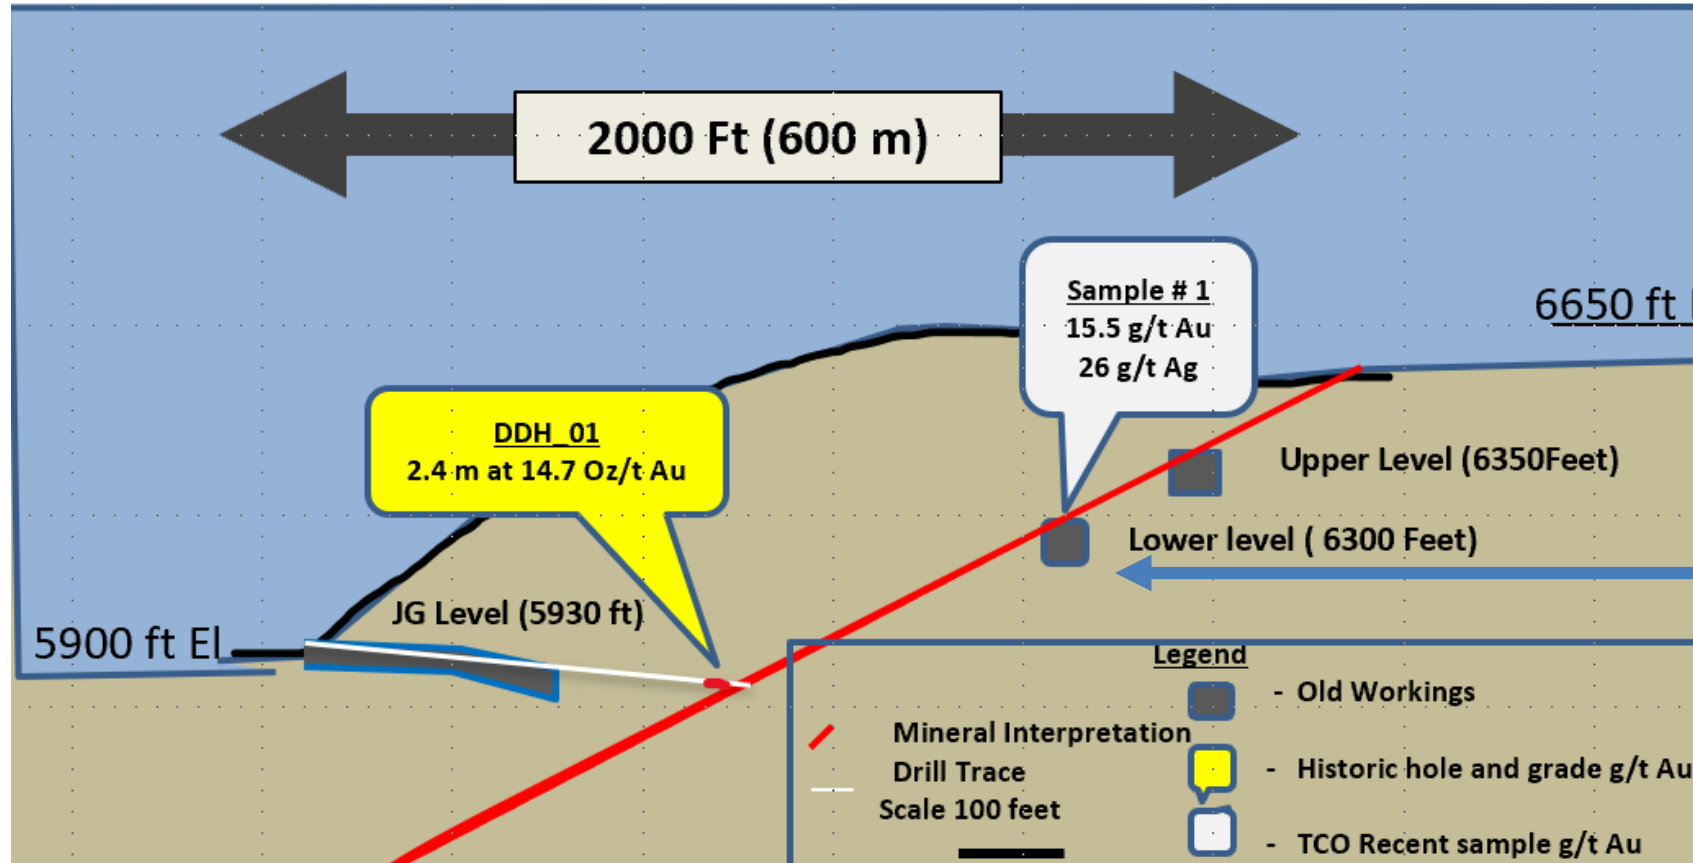

Miller Mine

- Exclusive Option lease to purchase
- Sample on Lower Adit Level with gold and grade
- Mined historically mined at **7.1 Oz Au /ton**
- Exclusive option to November 2019
- Transatlantic now drilling follow up to 1968 drillhole

DD_1 : 8 feet at 14.9 oz /ton Au (2.4 metres at 516 g/t Au)

**Sample from Lower Adit Level (6300 ft level)*

MILLER MINE – LONG SECTION

MONITOR COPPER/GOLD/SILVER PROJECT

- Already earned-in for 80% of Monitor Project JV in Coeur D'Alene (Silver Valley), Idaho for US2.1M
- Second largest silver producing area in the world
- Comprises 20 unpatented claims and 402 acres. Includes four old mines: Monitor, Richmond, St. Lawrence and Copper Age
- Two mineralized structures, Monitor and Richmond Veins; Monitor known strike 1500 m, up to 10 m wide, 600 m deep
- Monitor Mine mined from 1891 until 1910 when fire destroyed all above ground infrastructure destroyed
- NI 43-101 compliant report on the *Geology and Mineralization of the Monitor Mine Property* completed February 2013

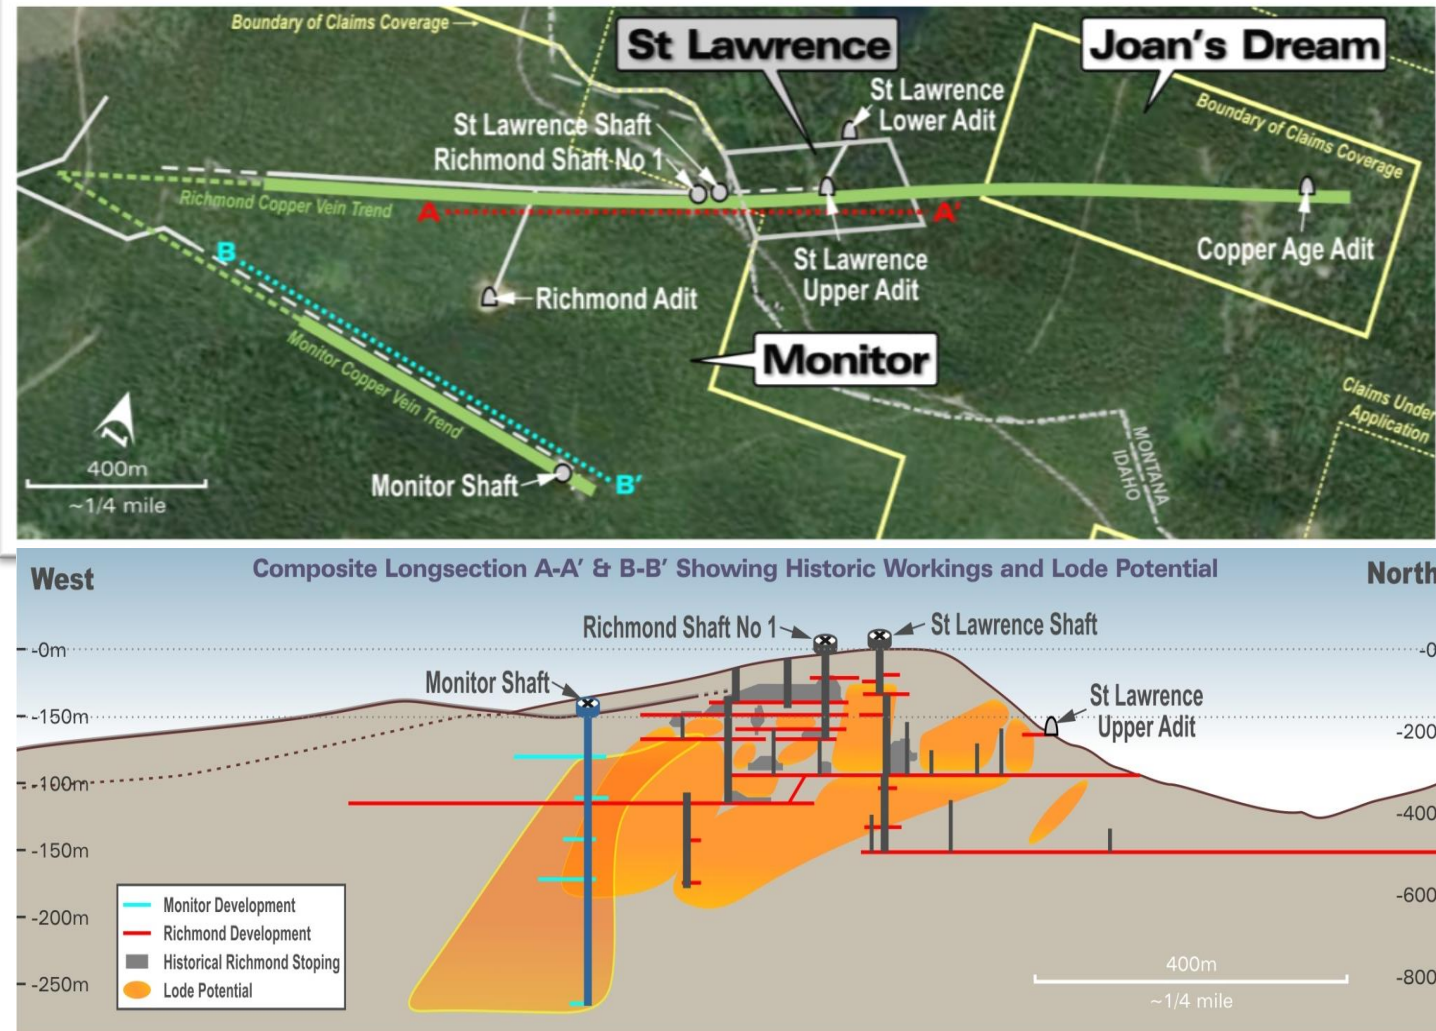

Region produced:

Silver	+1.2 Billion ounces
Lead	8.3 Million tons
Zinc	3.3 Million tons
Copper	207,000 tons
Gold	529,000 ounces

MONITOR COPPER/GOLD/SILVER PROJECT

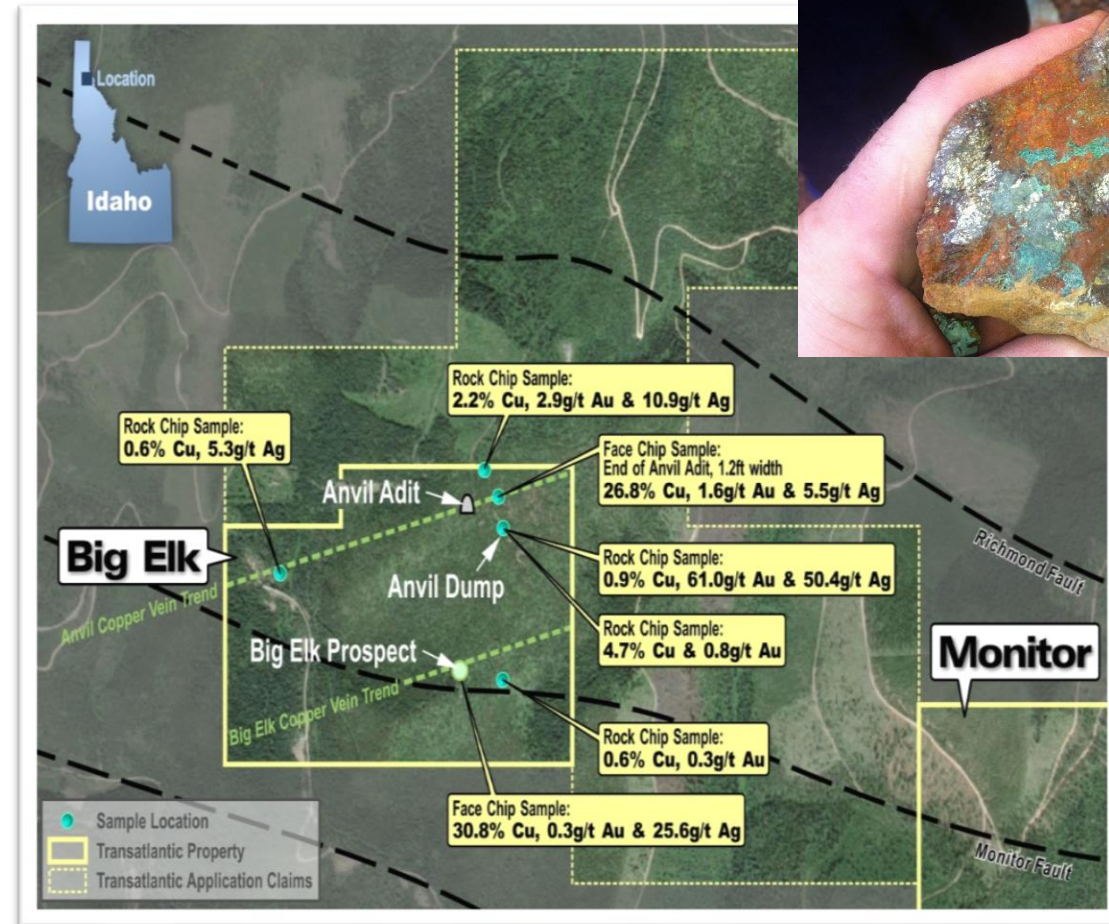

- Monitor average copper grade mined prior to 1920 was ~15% Cu with highest reported grade of 30.5%
 - + Associated metals accompanying Cu: Au 7.2 g/t, Ag 22.5 g/t
- Richmond average copper grade produced was 7.5% Cu prior to 1920
 - + Associated metals accompanying Cu: Au 3-10 g/t, Ag +30 g/t
- Predominant sulphide species are chalcopyrite and pyrite and historic grades are supported by recent drilling and underground exploration

BIG ELK PROSPECT

- Sulphide deposit at surface, including a high-grade, Cu sample of 30.8% within 1 metre of sub surface
- Known veins with extensions from adits recently accessed
- High grade Cu along 800+ m strike on two veins - Monitor and Richmond as major lines
- Potential for additional interposed veins along strike

Kearsarge Gold Project

Multiple Projects to commence pipeline of near term operations including the Kearsarge historical 600,000 gold resource and expansion case located 8 km from US Grant Mill^{3,4}

US Grant Mine & Mill

US Grant Mine-Mill Project as an Asset with future expansion cases from 150 - 300 tpd processing capacity¹

US Grant Exploration

Exploration Target: 1.7–2.6M tons, 0.19-0.28 opt Au Eq, 350,000–750,000 Au Eq ozs²

Resource Extension Drilling

Systematic drilling Kearsarge near-mine targets to extend/upgrade existing mineralization

Monitor Copper Gold Project

80% of Joint Venture as an Asset on several high grade copper/gold/silver deposits

Management Team to Build Growth

Proven management team to manage and operate mines safely and efficiently with focus on revenue margin and growth through organic and inorganic opportunities

¹ News Release 23 January 2016. Subject to financing

² Appendix B Exploration Target Potential

³ News Release 4 May 2017. No tonnes and grade reported.

⁴ Mineral resource estimate has not been established or defined

-Significant Assay Results (>3 g/t Au Eq) Drilling Equivalent Au based on US \$1200/oz Au and US \$15.80/oz Ag

APPENDIX B – EXPLORATION TARGET POTENTIAL¹

TSX-V: TCO

Exploration Area	Tons	Au opt	Ag opt	Au Eq opt	Au Eq oz	Drill Footage
US Grant Vein - Underground drilling	236,000 - 354,000	0.14 - 0.22	6.72 – 10.08	0.23 – 0.35	55,000 – 124,000	37,500
US Grant Vein - Surface USG-88-2 block	236,000 - 354,000	0.25 – 0.38	4.00 – 6.00	0.30 – 0.45	73,000 - 165,000	31,000
US Grant Vein - Surface USG-88-6 block	228,000 - 342,000	0.08 – 0.12	6.32 – 9.48	0.16 – 0.24	37,000 – 84,000	18,000
El Fleeda Vein - Surface drilling	452,000 - 678,000	0.12 – 0.18	3.20 - 4.80	0.16 – 0.24	73,000 – 165,000	32,000
Golden Boy Claims Group	278,000 - 417,000	0.12 – 0.18	3.20 - 4.80	0.16 – 0.24	45,000 – 102,000	6,500
Lee Fault Zone	320,000 - 480,000	0.12 – 0.18	3.20 - 4.80	0.16 – 0.24	52,000 – 117,000	7,500
Totals:	1,750,000 - 2,625,000	0.14 - 0.20	4.20 – 6.28	0.19 – 0.28	335,000 – 757,000	132,500

¹Exploration target for the project is conceptual in nature and in the range of 350,000 to 750,000 ounces Au Eq. at 0.19 ounce/ton to 0.3 ounce/ton Au Eq.

The potential quantity and grade is conceptual in nature as there has been insufficient exploration to further define a mineral resource above what is stated in the mineral resource estimation. It is uncertain whether further exploration will result in the exploration target being delineated as a mineral resource.

Equivalent Au based on US \$1200 Au and US \$15.80 Ag.

Nesbert Nyama is an Independent, Qualified Person responsible for developing the exploration target ranges.
